## DANVILLE.

Granville Cecil sold to New York parties, three trotters. Price reported \$1,000.

Mr. James Beddow, one of the oldest citizens of Danville, died Wednesday night. Also infant son of Wm. Fox. Both buried in Bellevue cemetery.

The ladies of the Episcopal church continue the sale of candies and other delightful things to eat, which are displayed in the windows of the express office.

On account of the inclement weather many were prevented from attending the elocutionary entertainment given by Mrs. Archie Robertson at the opera house Friday evening. It was given for the benefit of the Christian church and highly enjoyable.

Mrs. M. D. Moore, of Auburn, Ala., widely known as the "Betsy Hamilton" of the Sunny South, will appear at the opera house Tuesday evening. These readings and recitations are from her own popular writings. She comes under the auspices of the King's Daughters of the 1st Presbyterian church. Mrs. Moore is the guest of Mrs. E. W. Green.

Mrs. Linn, of Thomasville, Ga., is visiting Mrs. J. S. Chrisman. Mrs. David Logan returned to Cincinnati with her sister, Mrs. Wm. Robinson. Mrs. Nellie McGoodwin entertained Thursday afternoon from 4 to 6 in honor of Miss Shelby's visitors, Misses Gibson and Voorles. Mrs. Griffith, of Independence, Mo., is the guest of Miss Jennie Lee. Kendrick, Miss Sallie and Mesdames Gibson and Walden attended the Christian Endeavor convention in Chattanooga. Mrs. Price Hudson, of Louisville, is the guest of Mrs. Yates Hudson. Mrs. A. B. Nelson entertained Saturday afternoon in honor of Mrs. Pieper of Washington. Dr. J. Lapsley McKee is conducting a meeting at Eureka Springs, Ark.

## WAR ECHOES.

Gen. Wilson wants to move the Lexington troops further South and it is likely that city will lose the camps.

The steamer Rio Janero arrived at San Francisco from Manila with 140 sick soldiers. Seven soldiers died at sea.

Rear Admiral Dewey has succeeded in seizing all of Aguilando's steamers. The natives are indignant and their attitude is threatening but there has been no demonstration.

Gen. Blanco in order to get every cent out of Cuba is plundering right and left under any pretext that he can invent and the American commissioners seem powerless to help it.

Requisitions for \$5,000,000, drawn by the paymaster general, were approved by the secretary of war, this being the heaviest draft made on the treasury at one time since the war began.

When Capt. James G. Blaine arrived in Washington, fresh from his escapades at Honolulu, he was roundly lectured by Secretary Alger. He escapes court-martial by being discharged from the army.

John Phelps, a son of ex-Gov. Phelps, of Missouri, was dishonorably discharged from the military service at Lexington for insubordination. A dishonorable discharge carries with it a forfeiture of citizenship.

Several Negro soldiers started a riot in Chattanooga Sunday by trying to release a comrade who had been arrested by a policeman. In the shooting which followed, William Brandles, a white man, was killed and a policeman and several soldiers wounded.

San Juan, Porto Rico, has been made the first foreign naval station of the United States, and will probably be the most important. It is not unlikely that the harbor may be deepened, and also those at other points on the island. Rear Admiral Schley is not to remain in Porto Rico, but is coming home.

The situation between England and France over the Fashoda matter is critical. The British Admiralty has ordered every sea-going warship to have its crew made up to the full complement. A Russian paper, commenting on Sir Michael Hicks-Beach's speech, says France has, in Russia, "an ally resolved to support her in the Fashoda question."

There were 31 steamship accidents during the year and 283 lives lost according to the report of the Inspector general.

## MATRIMONIAL MATTERS.

David Jenkins has six wives buried side by side at his home near Urbana, O.

Divorces granted in Chicago during the present year will foot up nearly 3,000.

Two jealous husbands killed their wives and themselves in Jersey City Sunday.

Miss Laura Williams, of Chicago, has gone to London to become Gen. Merritt's bride.

Edward Gilbert, Jr., a law student of Terre Haute, Ind., committed suicide because of unrequited love for a Miss Jameson, of Paris.

The chancery court in New Jersey has granted Sig. Perugini a divorce from Lillian Russell, the actress, making her third divorce.

The young wife of Hoo, Rodolphus Sanderson, 80, ground glass in his coffee and it killed him. She married him for his money and he was too long dying.

Miss Elizabeth Buckwalter, of Wooster, O., is to marry this week the man she sued for breach of promise 49 years ago and got \$750. All things come to her who waits.

Miss Nannie Jordan, barely 13, and William Laurison, aged 22, of Powell county, were married in Madison. The bride is the youngest woman ever granted license in that county.

A Covington girl advertised for a husband and got him. The advertisement and wedding outfit cost \$11, and within a year he died and left her \$5,000 life insurance. It certainly pays to advertise.

John Melchert, a Chicago photographer, employed at the Omaha exposition grounds, shot and killed Lillian L. Morris, his alliance wife, and committed suicide. Jealousy of the woman was the cause.

Lieut. W. B. Hine, Ninth Illinois volunteers, and Miss Maud Weller, of Bullitt county, forbidden to marry after the wedding feast had been spread, drove to Jeffersonville and had the knot tied there.

Donald B. McDonald, of Reno, Mich., aged 98, was married to Mrs. Maggie Ann O'Rourke, 84. The bridegroom was married three times in Canada, and was the father of 14 children. The bride has been married twice.

Mrs. Mary Horn, wife of Thos. Horn, living in Floyd, has a most remarkable matrimonial record. She is only 22, yet she is a wife for the fifth time. She began marrying when 18, and two of her husbands died and two were divorced.

Harry Keldar refused to marry Miss Genevieve Ransom, at Midvale, Neb., because he smelled the odor of cigarettes on her breath, while walking to the altar. She was addicted to the habit, but had promised him to eschew it. The would-be bride fainted and friends tried to persuade the nearly made groom to change his determination, but he was obdurate and the guests departed without seeing a marriage.

The value of the gold produced in the United States during the calendar year, 1897, was \$57,363,000. The South African Republic holds first place, producing gold to the value of \$57,633,801; Australia, \$55,684,182, and Russia, \$23,245,763. The United States produced during the year \$3,860,000 fine ounces of silver, and Mexico, \$3,905,180 fine ounces, a decrease for the United States of 4,974,800 ounces, and an increase for Mexico of 8,256,756.

Mrs. Clarence Pedigo, wife of a soldier in Porto Rico, died in Louisville. Her clandestine marriage was announced just before her husband left for Porto Rico, although it occurred a year ago. The birth of a child caused her death and necessitated an explanation.

There is serious trouble between whites and blacks in Scott County, Miss. A mob of Negroes fired into a sheriff's posse, killing one man and wounding two others. The whites armed and went to the scene, and a battle was waged nearly all day. Ten Negroes were killed.

At a public reception in Chicago, several women tried to kiss the president, but failed. To prevent him from such silly creatures it is suggested that he appear in public only when wearing a base ball mask.

A San Francisco hypnotist tried his supposed power on a lion. The king of beasts didn't like his passes and grimaces so he sprang on the idiot and bit him so that he died.

The finding of James Moberley, who killed Wm. Morgan, insane, at Harrodsburg, seems to have been a fixed up thing by his connections, who preferred to have been in the asylum to being hung or sent to the penitentiary for life.

James Shelton, of Livingston, was acquitted in the U. S. court at Louisville of the charge of obstructing an officer in the discharge of his duty, an offense for which the utmost penalty is 10 years imprisonment and \$10,000 fine. Deputy George Thompson, of Rockcastle, preferred the charge.

The Lexington, Harrodsburg & Perryville turnpike company has sold 13 miles of its pike in Jessamine county to that county for \$4,000. One mile of this pike cost the company \$30,000. There is a bridge on the above named pike that cost 40 or 50 thousand dollars, which the county did not buy, but will rent it of the owners.

James C. Beddow, Sr., one of the oldest residents of Danville, died Wednesday afternoon, after having been an invalid for a long time. The deceased was a native of Pulaski county, and the remains were taken to Somerset for burial.—A colored patriot applied to Deputy Clerk Sam Nichols for marriage license, but as he lacked 50 cents of having enough to pay the fee and had forgotten the name of his lady love, he went away sorrowful.—Advocate.

The October term of the Pulaski circuit court, which began at Somerset yesterday, promises to be very interesting. There 322 civil cases on the docket and 291 indictments, making a total of 613 cases. There are several very important civil cases, but only three or four murder cases. The case in which the most interest is exhibited is the prosecution against John P. Colyer, charged with the murder of A. J. Catron, late jailer of the county.

Mrs. Sarah A. Landram, widow of Gen. Wm. J. Landram, died Thursday, at the home of her daughter, Mrs. Woodford G. Dunlap, in her 73d year. Before her marriage she was Miss Walker and was connected with the Letchers and Owsleys and other distinguished families of Kentucky. She leaves five children, Mrs. W. C. McFarland, wife of Capt. W. C. McFarland, of the United States army; Mrs. R. A. Burnside, of Lancaster; Mrs. C. K. McGugin, of Howard, O.; Louis Landram, editor of the Central Record, Lancaster; and Mrs. Woodford G. Dunlap, of Lexington. She also leaves one sister, Miss Kate Walker. The funeral occurred at the Lancaster cemetery on Saturday, October 22. She was an excellent Christian and a fond and loving mother.

At a public reception in Chicago, several women tried to kiss the president, but failed. To prevent him from such silly creatures it is suggested that he appear in public only when wearing a base ball mask.

The peace jubilee at Philadelphia began Sunday with services of prayer and thanksgiving. Today will be naval day, Wednesday civic day and Thursday military day.

## TO THE TAX-PAYERS OF LINCOLN COUNTY.

Lincoln county has contracted for the purchase of turnpikes amounting to about \$50,000. The amount of property in the county assessed for taxation for the year 1898 is \$5,864,325; this varies every year. Under the existing conditions the fiscal court has been compelled to levy a tax of 25 cents on the \$100 for turnpike purposes exclusively, producing a revenue of \$14,660.91, which has been appropriated as follows:

|  |             |
|--|-------------|
| Keeping turnpikes in repair 10 months.....                   | \$4,500.00  |
| Interest on \$33,997.82 turnpike bonds at 6 per cent.....    | 2,039.00    |
| Purchase of Stanford & Knob Lick turnpike.....               | 3,171.00    |
| Lease Stanford & Hustonville turnpike 8 months.....          | 300.00      |
| Lease Danville & Hustonville turnpike 7 months.....          | 1,000.00    |
| Half purchase price Hanging Fork & Green River turnpike..... | 200.00      |
| Third purchase price Danville & Lancaster pike.....          | 450.00      |
| Sheriff's commission collecting.....                         | 736.00      |
| Total.....   | \$12,656.00 |

There is in addition to the levy for turnpike purposes a levy of 25 cents on the \$100 for general county purposes, making the total county levy 50 cents on the \$100, exclusive of the levy for State purposes.

The county is unable to purchase the three remaining principal turnpikes and is compelled to lease them at prices that approximate the toll revenues of the roads, which are very large. So long as the pikes remain unpaid for, the different companies will maintain their organizations, the vexatious questions of guards, leases, replacing of gates, payment of both toll and taxes in certain portions of the county, will arise for an indefinite time, with no hope of reducing the 25 cents levy for turnpike purposes. The fiscal court has ordered an election at the general election, Nov. 8, to submit the question of issuing bonds to pay for all the pikes at once and take up and cancel the turnpike bonds already issued, and thereby settle the whole matter once and forever advantageously to the tax payers.

The pipe for the pipe line is being shipped to Mill Springs and hauled to the oil fields in Wayne county, from which point the laying of the pipe will begin to about \$2,500 the first year. A levy of 5 cents on the \$100 of taxable property would raise about \$3,000 per year as a sinking fund to pay off the turnpike bonded debt; this would necessarily reduce the annual interest \$150 per year, while the probable cost of maintaining the pikes may not exceed \$4,500 per year. The people have said they wanted free pikes, the court has contracted for them at most reasonable prices in good faith and honesty demands that the companies be paid for their property.

It is the interest of every class of people to vote for the bonds and thereby carry into full effect the plan of free turnpikes and the wishes of the people. It must be remembered that it takes two-thirds of the entire voters voting to carry the proposition; every voter is thereby urged to vote for the bonds, thereby lessening the present burden by distributing the debt through a number of years; in such a manner that the county may annually pay off a certain portion of the debt until paid in full within a reasonable time, together with a fair prospect and reasonable assurance of a possible present reduction of the county tax. At the bottom of each official ballot furnished the voters at the election held Nov. 8th will be found the following proposition:

Are you in favor of issuing YES bonds for the purchase and maintenance of the turnpike roads of this county, free of toll to the traveling public?

The stencil placed as above indicated votes for the bonds. All of which is respectfully submitted.

HOW TO PREVENT CROUP.

We have two children who are subject to attacks of croup. Whenever an attack is coming on my wife gives them Chamberlain's Cough Remedy and it always prevents the attack. It is a household necessity in this county and no matter what else we run out of, it would not do to be without Chamberlain's Cough Remedy. ## The farmer who found a friend.

Serious results often follow a strain, especially when it affects the back, and few people are so heavy to strain as those who are lifting heavy loads of various kinds, from day to day. The teamster rarely overtaxes his strength. Fatigued with work, when he comes to handles, enables him to entirely gage the load, he lifts so as not to put an excessive burden on himself. But with the farmer it is different. He is lifting loads of such varying weights, and in such various conditions that he is very liable to lift a little too much some day, with injurious results. Many serious affections of the great organs of the body originate in a strain. It was so in the case of H. R. in Bismarck, of Towner, North Dakota. A strain resulted in serious trouble with the liver. How he recovered and was enabled to feed seventy head of stock during the winter, let him tell himself:

# THE INTERIOR JOURNAL

STANFORD, KY., - OCT. 25, 1898

W. P. WALTON.

Democratic Nominee For Congress.

HON. G. G. GILBERT,

Of Shelby County.

WHILE in Lexington Friday we found the 2d Kentucky in a fearful state of mind. On arriving there Tuesday no preparation was found for it whatever and Gen. Breckinridge wisely permitted the men to secure boarding houses in town, as they were so soon to be mustered out. But on assuming command in place of Gen. Breckinridge, relieved, Gen. Wilson to show his authority and let the people know he was there, ordered that every man report promptly at camp and that no passes be issued extending over nightfall. In view of the fact that the requisition had not been honored for plank for the tent floors and only about a fourth as much of straw as was necessary, the order was both senseless and arbitrary. It was pouring down rain and mud was knee deep on the grounds, the men had nothing but summer clothes and no overcoats and not being used to camping out under such conditions, it will be a wonder if half of them do not die of pneumonia or other kindred diseases. Instead of making their last days in the army as pleasant as possible everything is being done to give the men a further disgust of such life by entailing on them needless hardships and suffering. Col. Gaither says he did all he could to prevent such a state of affairs, but he is powerless in the matter. The process of mustering out is hardly commenced yet, nor will it be much before the election. Most of the 2d Kentucky are democrats and the powers that be have decreed apparently that they shall be denied the right of suffrage at the coming election at least. It therefore behoves every democrat who can get to the polls to be there and work early and late to show by the election of democrats to congress how deeply they are disgusted with McKinley and his entire incompetent crew.

THERE is no trouble in the democratic party in this county. It is practically united and unless Gen. Apathy is permitted to command, Gilbert will carry the county by a good majority. There is every reason for our people to rally to the support of our congressional nominee. He is worthy and well qualified, being a man of high literary attainments, as well as a practical and sensible one. His election means the redemption of the district from its worst element and his majority in Lincoln county will seal forever the doom of the boss and his methods. A democratic congress will place the responsibility of the cruelty and murder of volunteers soldiers, where it properly belongs, while the white washers report will go, if the republicans have a majority. Nearly all of us have relatives and friends, who suffered from incompetency and venality, while many weep over the graves of loved ones, hurried to an untimely death by Algerine methods. Let us all therefore bestir ourselves and by our votes demand the punishment of those who for political purposes placed favorites, including dog doctors, to see after the health of the flower of the earth. Go to the polls and vote for Gilbert.

THE Tennessee Methodist Conference at Clarksville resolved that the money fraudulently obtained for Congress for the book concern at Nashville be returned to the government. It surely ought to be, but if Maj. Stahlman is to keep his \$10,000 of the divide, the tale had as well go with the hide. There ought to be some way, however, to make Stahlman disgorge and by a return of the whole amount to the government relieve the church of a scandal that will injure it as long as the memory of man retains the scaly transaction.

A SOCIAL reformer has appeared at St. Louis who proposes that on the 1st of each January the worst and most trifling man in each county or ward in a city, be publicly executed, the selection to be made by ballot. There are so many trifling fellows here who deserve to be gotten rid of, that we fear a selection could not be made, and therefore the good of such a law would be lost on us, provided it is even seriously considered, which of course it will not be.

R. W. MILLER has leased the Richmond Register to R. Lee Davis and Henry R. Pickles. Mr. Davis will control the editorial and news department and Mr. Pickles the typographical. Mr. Davis is a very superior newspaper man and the L. J. for which, he probably wrote his first communication, is proud of him.

JUDGE CANTRELL in a test case decided the Goebel election law constitutional. The court of appeals will pass on it in time for the coming election and will doubtless affirm the decision, as the best lawyers have agreed that it is constitutional.

ALTHOUGH in retirement for some time, Senator David Bennett Hill, of New York, has been keeping up with the times and in a grand speech at Brooklyn for the democratic ticket, arraigned the administration for its attempt to give the republican party all the credit for the successful result of the war. He showed how McKinley had been forced to act, how Reed at his demand had stifled the will of congress till democrats had forced him to permit them to be heard and how Hanna, the Warwick of the administration as well as the head of its financial syndicate, with tears in his eyes, was demanding "peace at any price." "It was in no sense a republican war, waged in the interest or for the benefit of any political party, official or individual. Democratic soldiers as well as civilians will resent the offensive and untimely suggestion. It was the nation's war, undertaken not for political effect, but for liberty's sake—for the sake of humanity—for the defense of the National honor; a just and righteous war which overshadowed all political considerations, and it will not have been fought in vain, nor will its glorious results be obscured, dimmed or affected by the success or defeat in this State campaign of any political party, much less of that party which is held in public estimation largely responsible for compelling the inauguration of that very war."

THE trustees of the Houses of Reform met at Lexington Friday and succeeded in securing the \$8,000 that the county of Fayette had promised to give should the institution be located there. The money was turned over at once to Mr. Tanner from whom a farm of about 200 acres had been bought and the difference paid him, amounting to about \$10,000 more. Lexington has promised to give \$5,000, but it will be January before it can be obtained. The board decided to erect barracks at once sufficient to hold the 130 convicts in the penitentiary under the age of 18, whom Gov. Bradley will designate, and put them to work preparing the grounds and making the brick for the buildings which will be of the most approved order of institutions of the kind. Advertisements for bids for the construction of the barracks will be published at once and the board hopes that before a month is gone to have the youthful convicts in it and at work there.

SENATOR LINDSAY denies the story that he had refused to make speeches for Hobson in the 3d appellate district. It turns out to be a case of "Nobody asked you, sir," she said."

JUDGE SAUFLEY does not see the necessity for the Goebel election law, but says there is no question of its constitutionality, so far as he has examined it.

## POLITICAL POINTS.

Congressman Evans gets his name under the log cabin after a hard fight. Julius Dexter, who ran for governor of Ohio on the gold democratic ticket, dropped dead at Cincinnati.

Thirty-seven governors, as many State Legislatures and a new House of Representatives will be elected Nov. 8.

The Jessamine Journal says that Davis is no more able to cope with Gilbert upon National questions than a school boy.

With a registered democratic plurality of 8,514 and a majority over all of 3,229, Turner ought to have plain sailing to Congress.

The State commissioners will appoint new election boards for Clay, Garrard and Letcher counties, the first appointees refusing to act.

Alvarez Alvarado, a native of Porto Rico and 10 years' resident of New York, will test his right to vote, claiming the annexation of the island makes him an American citizen.

Jones and Deboe have come and gone. Now let us have Turney Giner, Taylor, and the campaign may then wind up in a blaze of glory and bad grammar.—Glasgow News.

James G. Woodward, whose nomination for mayor of Atlanta is equivalent to an election, is a printer and stood at the case setting type when notified of his nomination. Perhaps, after awhile, even the devil will get his due.—Cynthiana Democrat.

Among the commissioners named by Gov. Bradley to accompany him to attend the unveiling of the State monument at Chickamauga are Col. Mat Walton, John G. Matthews, John W. Yerkes, W. R. Ramsey, John W. Tutte, Max Howard and Green Keller.

In a speech at Richmond, Va., Pitchfork Tilman, of South Carolina, said that it would be better for the democrats not to gain control of the House, as that they have always acted like fools and would get in a row among themselves before 1900. In that year they would have a good chance of controlling both Houses, and it would be better to wait.

In addition to President McKinley, Postmaster General Smith, Secretary of Agriculture Wilson, Secretary of the Treasury Gage, Secretary of the Interior Bliss, Assistant Secretary of the Interior Davis, Assistant Secretary Ryan, Pension Commissioner Evans and Comptroller of the Currency Dawes are few of the high officials of the administration who are out begging the people to elect a republican Congress so that no investigation of the mismanagement of the war will be made.

The democrats of the Eighth district have an opportunity now to elect a Shelby county man, one, of whom, none of them need be ashamed and who, if elected, will do his duty honestly and conscientiously. There is not a man in the district who is better equipped to fill the position with honor to himself and to the best interests of the people of Shelby county and the district than Hon. G. G. Gilbert. He has views of his own and the courage to uphold them, and for this he is entitled to the respect of every fair-minded man, whether he agrees with him or not. He is our personal friend, a man of whose honesty we know there can be no doubt and he is a resident of our county, and for these reasons we hope Mr. Gilbert will win his race.—Shelby Sentinel, gold bug.

Hon. G. M. Davison, republican nominee for Congress, spoke at Harrodsburg Tuesday evening to a small crowd. This gentleman will soon find that his party in this part of the district is taking little stock in electing him. They appear to like him well enough, but the arrogance of their bosses a year ago, in not nominating candidates to oppose unpopular nominees of the democratic party has put a damper on the workers, and they have no doubt resolved to let the election go by default. While the democrats are taking little interest in the election, those favoring the advancement of the party in line with its only true platform, that of 1896, will go to the polls and vote to a man. They know Gilbert and will vote for him.—Burgin Messenger.

The effects of the war are manifold.

Certain artists in New York who two months ago were bewailing the fact that the war had knocked the bottom out of the picture market are now felicitating themselves on the outlook for native art. They believe that the awakening of national feeling is going to make an increased demand for American pictures. If patriotism finds a fresh outlet in paint the foreign portrait artists, who have been on velvet for some time, will have to hang up their palettes.

At a meeting of clergymen in Caldwell, Kan., recently, one of the ministers proved out of the Bible that God intended every man to have a wife. At the close of the sermon Rev. John Hoover, the only unmarried clergyman in the town, offered a prayer in which he asked God to send him a spouse right away. The local paper declares that the prayer was delivered with great earnestness.

SLOW.—Sheriff S. M. Owens tells us that taxes are coming in distressingly slow and that he can't keep enough money on hand to pay off the county claims.

OCTOBER is not maintaining its reputation for being the prettiest month in the year. On the contrary it is vieing with March in its changefulness. Rain is predicted again in 24 hours.

C. B. OWENS will be in the West End and J. C. Lynn in the East End all the week for the purpose of collecting taxes, and I hope everybody will pay promptly. S. M. Owens, sheriff.

IF voters can be bought with patent office reports and other government books, Davison will be in it. The mails are kept busy handling these expensive documents, which will be used for waste paper.

700.—Hon. John W. Yerkes, of Danville, is said to figure Davison's majority over Gilbert at 700. He evidently thinks that speech he is credited with writing for the gray gelding, but which does him no credit and which is being printed at so much per line, is a vote catcher from away back.

STEPHENSON.—Mrs. Lucinda Stephenson died at Crab Orchard Saturday morning of a complication of troubles, aged 96. She made her home with her grand daughter, Mrs. Scott Farris, and was the great-grandmother of Steve Teater, of this place. Her remains would have had business elsewhere. STARS.—Misses M. B. Givens, Annie May Steward and Lutilla Givens will give an entertainment at Walton's Opera House Friday night, which will be well worth the price of admission. Seats reserved for white people.

MIRABILE DICTU Davison screwed his courage to the sticking point yesterday and went to Lancaster to meet Gilbert. Everybody thought he had better sense, but he was bullragged till he was bound to make a feint. He wishes now, however, that he hadn't been so fresh. The flagellation he got will keep him sore for many a day.

"How are the gold democrats going to vote in this election?" was asked of Col. Thos. P. Hill yesterday. "I am and every one with whom I have conversed is going to vote the democratic ticket. We are not republicans in any sense and only differ with Mr. Gilbert, who is sound in every other way, on the money question, which cuts no figure in this contest. Gilbert is a good man, a capable man and a man of high attainments, and will make an excellent congressman."

DAVISON tried to work a trick on Mr. Gilbert the other day, but it was so clumsy and transparent it went for naught, except that he will use it to make his hearers believe that he is not afraid to meet his opponent. Knowing very well that Mr. Gilbert had an appointment to speak at Nicholasville, Monday, 17th, made a month or more ago, he wrote to him that he would be glad to have him divide time with him at Danville, after he had gotten the Hon. Hummy Willson to be at Nicholasville to reply to Mr. Gilbert. Had the democratic nominee recalled his appointment and met Davison at Danville, Davison and his cohorts would have said at once that Gilbert ran from Willson, but our man was too smart for that. He saw into the scheme and knew full well that had he signified his intention of going to Danville, Davison would have had business elsewhere. He could not be made to meet Gilbert in debate for love or money.

The meeting at the Christian church promises to be one of the most memorable for results of any that has ever been held in Stanford. Rev. H. A. Northcutt is a preacher of great force, who presents the word of God eloquently but simply, and his very manner carries conviction with it. To date there have been 23 additions, some of them of men who apparently had forgotten the teachings of good mothers and there is great rejoicing. The meeting will continue through the week at least, with preaching only at night, the moon enabling country people to come at night now. The house is always packed and people go nearly an hour before services in order to secure good seats.

BURGLARY.—A thief entered Mr. W. B. McRoberts' sleeping room Thursday night and took from his pants pocket about \$3 in money and a nickel plate watch safe. His vest, containing his watch and other valuables, hanging on the chair with his pants, was not molested. Entrance was effected by cutting a slot from the shutter and lifting the catch. Tracks around the window showed the scamp had small feet and wore sharp-toed shoes.
